BUY WITH CONFIDENCE

In this list we offer one of the most complete assortments of trees and plants to be found in any Nursery in Ohio. We grow our own stock under the same climatic condition and in soil similar to yours. The quality is fine and the plants are well grown, freshly dug and carefully handled. All stock is always carefully dug to preserve all the roots so you know it can grow well for you.

Buy by mail or at our large sales ground. We shall be delighted to serve you well.

Pickett & Son

OUR GUARANTEE

We guarantee to deliver well-grown trees and plants, and the planter is expected to give the material reasonable attention. While losses from transplanting our vigorous, carefully handled plant material are at a minimum, there are some losses to be expected, regardless of how careful both Nurseryman and Planter may be. We agree to share with our customers on a fifty-fifty basis any losses from transplanting our plant material by replacing at half-price the following season—you to notify us not later than August 1 after date of delivery.

Non-Warranty. We are very careful to keep our varieties true to name, and we hold ourselves in readiness on proper proof, to replace free of charge any stock that may prove untrue to label, or we will refund the purchase price. We are liable at no time for more than the original price paid.

Prices subject to change without notice.

MAIL ORDERS

You are invited to visit the Nursery and select plants of your own choosing, but if you cannot drive to Clyde, you can always be sure your order by mail will receive careful attention.

Send your order by mail and prompt shipment will be made. Please include the 3% Ohio Sales Tax. Mail to The Clyde Nursery, Pickett & Son, Clyde, Ohio.

Remit by check, bank draft, or money order. We do not ship C.O.D.

Orders for small plants can be sent by mail. Such items as Evergreens and Trees are too large for mail shipments and they are sent express or freight.

How to Figure Postage: Orders up to \$2.50 add 25c postage. Orders from \$2.50 to \$5.00 add 40c postage. Larger orders will be sent by express or freight with transportation charges collect.

PICKETT'S OHIO GROWN FRUIT TREES

For more than eighty years we have given special attention to Fruit Trees, growing them with utmost care and skill in our own large Nurseries. Pickett's trees are good trees and are sold at reasonable prices. We propagate our Fruits under careful conditions, selecting buds from bearing trees of outstanding merits. This is your assurance that our trees are pure and of the best strains.

Well cared for in the Nursery, the trees are thrifty and well-rooted. We dig them carefully, running the digger very deep so that you get all the feeding and fibrous roots and you know the trees can grow.

The farmer and gardener who has bearing Fruit Trees makes money. Plant some trees this year and every year.

The laws of nature make trees bear better in groups, so plant more than one variety of each fruit so they may cross pollinate.

Number of Trees or Plants for an Acre of Ground Set at Regular Distances Apart

Feet		Feet	
1 by 1	43560	5 by 5	1742
2 by 1	21780	6 by 6	1210
2 by 2	10890	8 by 8	680
3 by 1	14520	10 by 10	435
3 by 3	4840	16 by 16	170
4 by 1	10890	20 by 20	109
4 by 2	5445	25 by 25	70
4 by 4	2725	30 by 30	48
5 by 1	8712	35 by 35	35
5 by 3	2904	40 by 40	27
5 by 4	2187	50 by 50	18

Rule: Multiply the distance in feet between the rows by the distance the plants are apart in the rows and the product will be the number of square feet for each plant or hill; which divided into the number of feet in an acre (43560) will give the number of trees to an acre.

APPLE

SHADE TREES

The size of all trees is given by height except where the word caliper is inserted before the size. The caliper of a tree is the thickness of the trunk just above the ground line. Our Shade and Flowering trees are splendid in both "top and root" growth, having been transplanted frequently and given ample space in which to develop.

Larger trees quoted on request.
